

1 The first chapter	2
1.A First chapter, first section	2
1.A.a First chapter, first section, first subsection (2). 1.A.b First chapter, first section, second subsection (3).	
1.B First chapter, second section	4
1.B.a First chapter, second section, first subsection (4). 1.B.b First chapter, second section, second subsection (5).	
2 The second chapter	6
2.A Second chapter, first section	6
2.A.a Second chapter, first section, first subsection (6). 2.A.b Second chapter, first section, second subsection (7).	
2.B Second chapter, second section	8
2.B.a Second chapter, second section, first subsection (8). 2.B.b Second chapter, second section, second subsection (9).	
3 Title	9

1 The first chapter

1.A First chapter, first section

1.A.a First chapter, first section, first subsection

1.A.b First chapter, first section, second subsection

1.B First chapter, second section

1.B.a First chapter, second section, first subsection

1.B.b First chapter, second section, second subsection

2 The second chapter

2.A Second chapter, first section

2.A.a Second chapter, first section, first subsection

2.A.b Second chapter, first section, second subsection

2.B Second chapter, second section

2.B.a Second chapter, second section, first subsection

2.B.b Second chapter, second section, second subsection

Write inline equations like x or y .

Also block equations (this case is from katex.org):

$$f(x) = \int_{-\infty}^{\infty} \hat{f}(\xi) e^{2\pi i \xi x} d\xi$$

We also support text mode (in development):

3 Title

A **strong** text, a *emph* text and inline equation $x + y$.

Also block equation 1.

$$a^2 + b^2 = c^2 + d^2 \tag{1}$$

LaTeX

$$f(x) = \int_{-\infty}^{\infty} \hat{f}(\xi) e^{2\pi i \xi x} d\xi \tag{2}$$

typst

$$f(x) = \int_{-\infty}^{\infty} \hat{f}(\xi) e^{2\pi i \xi x} d\xi \tag{3}$$
